

Gator-Grip Reusable Test Plates

Split Steel Test Plates Per NAS1900 Paragraph 3.3.2 & 4.4.2
Per National Aerospace Standards Specifications

Patent Pending **Gator-Grip** Design

Our Gator-Grip plates are made to a standard .500 thickness, we then counter bore the back of our plates to your specified grip thickness, heat treat, grind and EDM the hole diameters after heat treat to ensure the $\pm .0005$ tolerance on the hole I.D.'s are exact.
